To Set The Child Free

We Work On Our Inner & Outer Worlds

At NewAge we focus on educating both the mind and the heart along with maintaining a healthy and fit body. NewAge envisions to nurture confidence and independence giving our children the educational & co-curricular support they need to grow into flexible and resilient young adults, ready to succeed in a rapidly changing NewAge World!

NewAge strives to achieve to set the child:

- free from shyness and inhibitions 
- free from rote learning 
- free from the fear of failure 
- free from the boredom of meaningless learning 
- free the child from the stress of learning itself 

Why NewAge?

Real-World Education

Human Touch

Enabled by Technology

Driven by Values

World-Class Learning Experience

Holistic Development

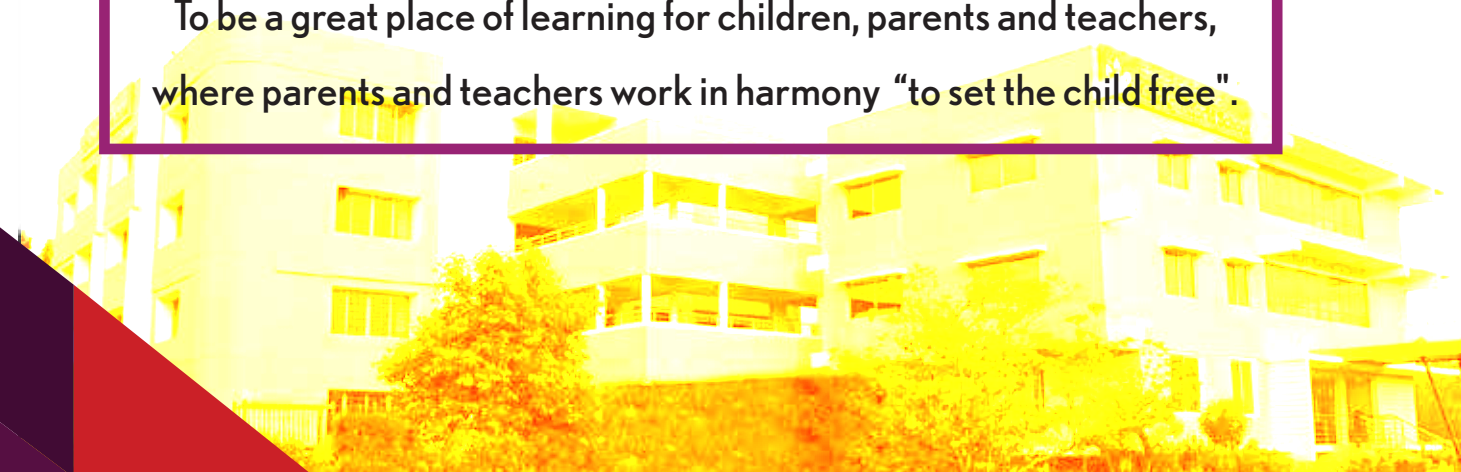

Where do we come from?

NewAge is built on the foundation of our belief that by working on our inner and outer worlds, we would be successful not only by chance but by design.

What do we want to be?

To be a great place of learning for children, parents and teachers, where parents and teachers work in harmony "to set the child free".

 **Our Motto**
"to set the child free"

 **Our Vision**

To provide a value-based world-class learning experience that will instill in our students knowledge, life skills, sportsmanship, confidence and resilience to face a rapidly changing NewAge World.

 **Our Mission**

We believe that a child must be allowed to explore, imagine, experiment, create, make mistakes and think differently in an environment of guided freedom to grow into responsible citizens of tomorrow.

NewAge[®] PreSchools

The First Steps

Our PreSchool programme takes the little learners on a comprehensive journey of discovery through different developmental areas and their curious minds are likewise developed through independent as well as facilitator supported learning encounters. All this happens in a caring, safe and encouraging environment that lets them bloom to their fullest potential.

NewAge[®] World School

A New Vision of Education

We have questioned the obvious, rethought the given and recreated the basics to come up with an approach to education that is child centric. Education at Newage World School is about challenging the boundaries, constructive questioning and the ability to think afresh. Our educational environment encourages students to appreciate the world around them, the importance of working together with focus on individual growth and to develop a positive and progressive outlook. We have an in-house award winning NDEE (NewAge Department for Excellence in Education) team creating relevant educational modules that enable children to absorb knowledge in an effective manner.

We are affiliated to the Council for the Indian School Certificate Examinations. (CISCE)

It conducts the Indian Certificate of Secondary Examination (ICSE classes IX & X) and Indian School Certificate (ISC classes XI & XII)

The ISC examination is a school leaving certificate. English is a compulsory subject for all ICSE & ISC students. Depending on their interests and intended career paths, students may choose four subjects from the following streams in class 11.

- > Science
- > Commerce
- > Humanities

CONNECTING WITH NATURE

Unmatched Learning Experience

At every level, the curriculum has been redesigned from the child's point of view to enable intuitive learning.

The Concept Learning Methodology

Insights create the spark that embed knowledge as permanent imprints on impressionable young minds. At NewAge, the focus of learning is on insight, deeper understanding and higher order thinking and applying learning to real life situations. This contextualisation creates a fertile learning environment where concepts and competencies are retained over a lifetime. We aim to build confidence by building competence.

Child Centric & Focus Group Programme

Learning is not by rote or a repetitive process that moves with the same pace for different individuals. Each child is unique and learns at his/her own pace. We created the Focus Group Programme to address the additional needs of children and bridge learning gaps to achieve the desired learning outcomes.

An All-round Perspective to Development

Beyond mere education, our intent is to ensure three-hundred-sixty degree development of our students through multiple interventions.

Development Areas

Our effective Literacy and Numeracy Programmes and our Communication and Language Development Programme enable our students to articulate their innovative thoughts, opinions and ideas with clarity.

NewAge aims at comprehensive and balanced development in all domains - Physical, Intellectual, Emotional, Value System, Aesthetics, Artistic and Social skills.

Activities

Learning is never limited to books at our institution. Activities like Art, Craft, Music and Dance help children to hone their finer sensibilities. Articulation and confidence come from regular participation in Theatre, Story Telling, Recitation, Elocution, Debate & Quiz. Visits and outings help bring in ideas and perspectives while events and celebrations create joyous moments to be shared with the community at large.

Real-World Education with Evolving Approach

Teacher Development

Our teachers are learners first and teachers later. Our carefully curated Teacher Professional Development Programmes sensitise our teachers to the needs of the child by imparting newer and currently relevant techniques and approaches.

These programmes help teachers integrate lessons and make connections across the curricula. They help them on their continuous journey towards professional excellence to mould vibrant, confident and young individuals.

Parents Connect & Collaborate (Bridging for Better)

Our parents and teachers follow a cooperative and collaborative approach to facilitate the learning process. Good and frequent communication between our parents and teachers makes it easier to collaborate and support the emotional, social and academic development of the child. To benefit the child, we work with parents through:

- > Parent Orientation
- > Digital Communication
- > Workshop for Parents
- > Open House
- > Parent Teacher Interaction

Excellence Driven by Technology

Technological advancements make way for interactive learning at NewAge. Our school is equipped with digital learning content and supporting aids to make learning transition from concrete to abstract an easier one.

Digital Classrooms

Every classroom is a digital classroom, which brings alive the concepts being learnt through the use of technology.

In-house NDEE (NewAge Department for Excellence in Education)

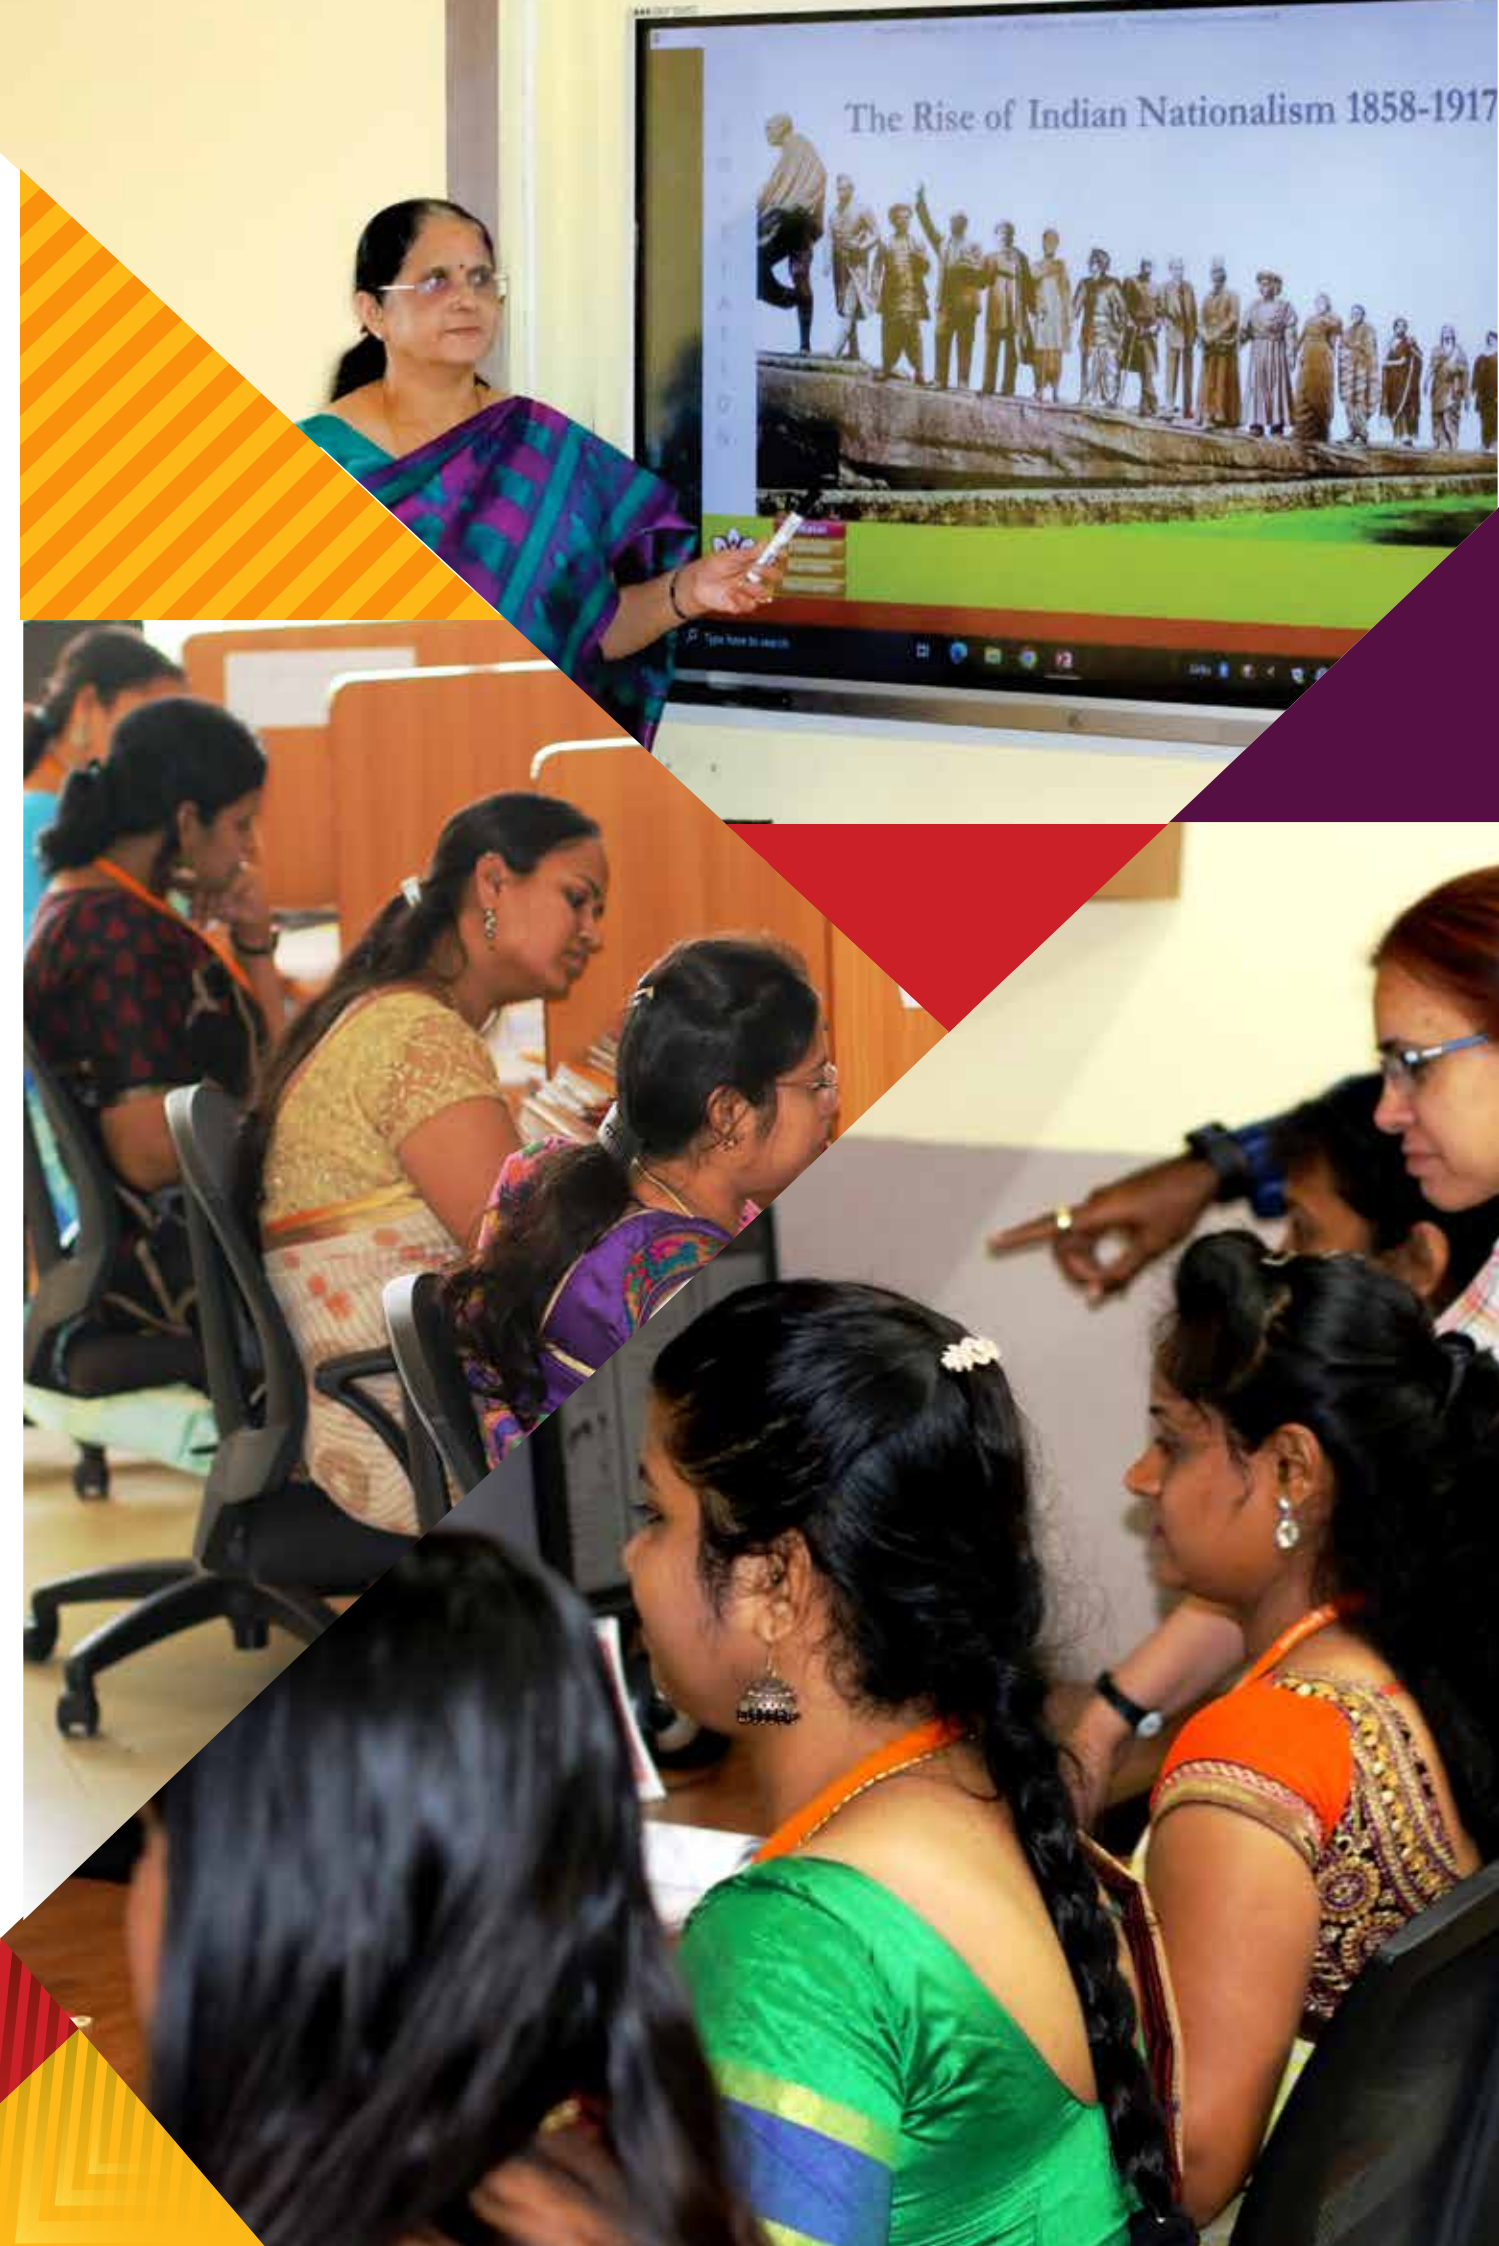

Digital learning content is developed in-house by our team of experts in educational research to support a concrete learning environment for the child.

Creating Custom Curriculum

Our team of experienced educators combine their knowledge with the current learning expectations to create learning modules and exercises that establish and reinforce concepts.

Our NDEE:

- > facilitates teaching and learning by digitalizing lesson plans
- > develops structured learning plans as per curriculum.
- > integrates technology with the active learning process to achieve successful learning outcomes.
- > played an active role during the recent pandemic as lesson delivery was not a huge challenge because we have been infusing our lessons with technology since 2018.

World Class Facilities & Infrastructure

Grade 1 - Grade 5

Language, Math & Science Lab

Our Junior School classrooms provide an enriching learning experience as learning is assisted by Language, Math and Science labs placed inside the classrooms.

Grade 6 - Grade 10

Physics, Chemistry & Biology Lab

"Learning by Doing" is one of the teaching-learning processes followed at NewAge World School. The school has very well-equipped separate laboratories where students get hands on experience through experimentation and exploration. All our labs have the latest apparatus to facilitate the learning of different concepts.

Grade 1 - Grade 10

Computer Lab

The school has a very well-equipped computer laboratory where students can test concepts and validate their understanding in real time.

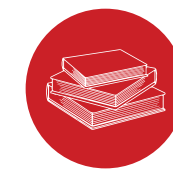

Performing & Fine Arts Studio

Imagination is the beginning of creation.

At NewAge, we believe in instilling a sense of creativity and developing cognitive abilities in order to assist independent decision making by every child. Children find a range of creative expressions, be it through mastering different musical instruments, working as a band or creating compositions.

Regular Art, Dance & Theatre sessions help young minds bloom and understand the multi-dimensional world of Arts.

Library

The spacious school library stores books on almost all subjects relevant for students. More than twenty magazines and all major newspapers have been subscribed to, for the advantage of students and teachers. Updation from time to time with the latest books, journals and magazines add to the already thriving study resources.

Extensive Multi Sport Arena

Our sports facilitators and professional coaches identify children who are passionate and possess specific sporting talents and direct them to excel in the same. We make it possible for a student to follow a sporting passion and participation in external events by providing all the academic support at school. We believe that a student can excel in both sports and academics.

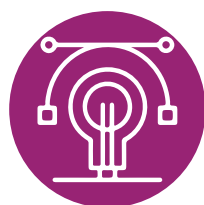

The purposefully designed NewAge campus houses a wide range of well-designed sporting arenas which comprises of:

- > Lawn Tennis
- > Basketball
- > Football
- > Badminton
- > Cricket
- > Swimming (1/2 Olympic-size pool)

Children are coached in a number of indoor sports & activities as well.

- > Chess
- > Carrom
- > Table Tennis
- > Yoga & Meditation
- > Taekwondo

Life Skills Programme

We strive to arm our students with certain life skills so that they may thrive as adults and be more in harmony with their surroundings. Life skills build awareness and help them make better and sensible decisions later in life.

Green & Pristine Locale

In-house Transportation

Trained and well experienced drivers are assisted by a lady assistant in every vehicle that travels to various parts of the city. GPS tracking & CCTVs ensure safety & aid the transportation facility at NewAge.

Safety and Security

- > Specially trained learning facilitators and support staff
- > Use of materials of the highest quality and fire safety drills
- > Secured campus, monitored by security guards & electronic surveillance
- > Lady support staff monitoring all washroom enclosures
- > Constant monitoring during recess

Health and Hygiene (First Aid)

- > First aid in infirmary
- > Arrangement with a neighbourhood world-class hospital for emergencies
- > In-house nutritious lunch & safe drinking water
- > Child-friendly, well maintained regularly cleaned toilets
- > Regular workshops/talks for students on maintaining a healthy body and a sound mind, the importance of general and personal hygiene, onset of puberty and sex education.

Pollution Free Environment

- > Vast, serene and verdant green campus
- > Clean air, free from the city noises

Community Development & Service

Being a part of community development and service is an elevating experience. It gives students a better understanding of their local community and teaches them patience, time management, problem solving and collaboration.

Connecting with Nature

From seed balls to community composting to several other purposeful sustainable activities, we educate our children on the importance of nurturing the earth.

We encourage children to prepare the soil and sow seeds to grow vegetables for their consumption. This enables them to appreciate the time taken to grow food, the hard work and the immense contribution of our farmers. Wastage of food is reduced and prevented by this awareness. We received The Eco School of the Year Award from Education Today with great pride.

Ranked No. 3, Preschool with
Mainstream School in 2023.

Progress happens through Real Education.

Chairman's Message

“Educating the mind without educating the heart is no education at all.” Aristotle’s words touch a deep chord so at NewAge we focus on educating both the mind and the heart along with maintaining a healthy and fit body.

Our in-house academic content is designed by a qualified nine-member team after they receive valuable input from teachers. We have been ranked No.2 by Education Times, (a supplementary of The Times of India) among the top ICSE schools in North Bengaluru. The awards and recognitions bear testimony of the spot we have carved for ourselves in the educational field.

A holistic education has the transformative power to empower. Professional Development Workshops help our teachers stay abreast with the latest pedagogy and effective teaching strategies. The efficacy of the outcome is impressive when driven by technology in our smart classrooms. We believe teachers and parents must work together to mould the child.

Sports is an integral part of the learning process; teaching our students discipline and time management while developing their sensorimotor skills. Qualified coaches of international repute train our students in different sports in our state-of-the-art indoor and outdoor sports arenas. An hour every day is dedicated to sports in the regular school timetable. Qualitative training is given to every student in fine arts and performing arts.

Our Life-Skills Programme, Community Development and Service and The Earth Connection Programme are aimed at moving closer towards our vision of preparing Newageans to become future fit in a rapidly changing world.

I am grateful to all the parents and our well-wishers for their continued support as we grow.

D.H. Basavaraju

Chairman

NewAge World School

Mrs. Rama B, Managing Director

Mrs. Rama B Raj brings in a wealth of experience and knowledge to the school's community. Committed to providing an exceptional education to all our children, she is the driving force behind our pursuit of excellence in all spheres of activity. Her vision is to prepare our pupils to meet the challenges of the modern world by encouraging articulation, enquiry, adventure and exhibiting a love for learning. She challenges the norm and dreams the impossible. Extremely passionate about sports, she ensures that every Newagean plays a sport for an hour a day at school. This brings about discipline, respect for time, compassion and personality development.

Mr. Rakshith B, Associate Director

Mr. Rakshith B Raj, holds a degree in MBA and he is driven by his vision to create an institution of excellence in education. His inspiration, imagination and the innate ability of understanding the pulse of today's educational requirements help him plan accordingly to provide quality education, covering a wide variety of aspects that fulfil the expectations of parents. His intent is to create platforms that inspire students to learn with ease and comfort to face the challenges of tomorrow in this NewAge World.

Mrs. Akshitha B, Associate Director

An international tennis player, Mrs. Akshitha B Raj is an MBA gold medalist graduate with a vibrant and creative mind. She is a testimony to the fact that a child can achieve excellence in both academics and sports. She designs the curriculum for the preschoolers, providing them the right direction and further making teaching and learning fun-filled and fruitful. The foundation that she provides at the base level is sure to shape them to become competent learners during their progressive schooling years.

Citizens of Tomorrow
